SielCup

Siel Cup

SielCup is suitable for all popular makes of InCup beakers and products.

Your advantages at a glance

Cup for cup: Hot & ready.

Everybody knows that feeling of fancying something hot – and a short break.

Whether in the office, after work, during study or for no obvious reason. SielCup, the quick, automatic, hot drinks service from Sielaff, is open 24 hours a day and has an inspirational wide range of coffee, chocolate, tea and snack soups in an office or public version.

Your competitive advantage: The SielCup accepts all commercially available InCups and products with a diameter of 73.5 mm. You are almost unlimited in the choice of what you can offer to match the location. The market for fill products is becoming more and more attractive. Many reputable brand manufacturers are now offering high-quality InCup to fit perfectly into the SielCup and your sales portfolio.

Delicious coffees, aromatic teas, soups with croutons or noodles: The SielCup offers up to 16 different products with a capacity of 75 cups for each product and a total capacity of up to 1,200 cups. There are 2 x 16 product selections with LED illumination available, each giving the customer a choice of small or regular.

Sielaff: Reliability "Made in Germany".

A quality promise which also applies to SielCup: Made from high-quality metal and other hard-wearing materials, this unit provides a benchmark for top workmanship and particularly long service life.

Success everywhere.

Thanks to our well thought-out, low-maintenance operation, profitability is guaranteed at all locations.

Send strong sales signals.

Back-lit product labels ensure maximum exposure. They catch the customer's eye, sending this attractive message: Lots of different hot drinks available here.

Newly thought through and made more efficient.

Being an innovative, cost-saving miracle with a low energy consumption, SielCup achieves energy efficiency class A+ according to EVA EMP and thereby fulfils the highest demands for ecology and economy.

Individuality that hits the spot.

Individual design of the SielCup ensures that it fits in perfectly with your existing line of machines.

Easy to transport and commission.

Delivered using a pump truck, therefore no pallet required. SielCup stands on its own height-adjustable feet and is ready for immediate use.

Talent & Technology

SielCup
